

Dear Minister,

I rang your office today and they requested an email query.

In the latest Engineers Australia magazine there was an announcement of the Federal Bill "Land Transport Infrastructure Amendment Bill 2014".

This listed various Major Funding commitments down to \$M400 and several other sums for studies, bridges etc. Our interest of course is primarily in Federal funding for the Calder Park Drive Overpass in Keilor, Victoria on the Calder Freeway which was listed in your Submission to the Federal Government for Minor Capital Projects under \$M100.

Our query is: Is there yet any indication of joint funding for the Calder Park Drive Overpass and can we expect any State Government announcement soon of such funding please?
Regards,

Ian Sutherland
