

Calder Freeway safety improvements at Sunshine Avenue, Taylors Lakes

The safety improvement works will provide safer conditions for local traffic and freeway drivers along this section of the Calder Freeway where 39 casualty crashes were recorded between 2004 and 2009.

As part of the safety improvement works, the following changed traffic conditions will be in place from early/mid April 2012:

- Permanent closure of the Calder Freeway median openings at Sunshine Avenue, Highland Road and Oakbank Road
- Permanent closure of direct freeway access at Oakbank Road and Highland Road
- Access to Oakbank Road and Highland Road will be via the new local access road connecting to the Kings Road interchange
- Temporary closure of the left-turn entry into Sunshine Avenue from the Calder Freeway
- Temporary closure of the Bendigo bound entry from Sunshine Avenue to the Calder Freeway

During this time all traffic will be diverted via the nearby Kings Road interchange or Melton Highway interchange.

Refer to the map for changed traffic conditions.

Signs will be placed around the area advising motorists of the detours.

It is expected that the temporary closures will be in place for several months whilst construction is being undertaken.

VicRoads and BMD Constructions Pty Ltd apologise for any inconvenience this may cause.
